

# Fence Wrap

## Guidelines for Submitting your Logo

For us to brand your Fence Wrap we need your logo. There are specific requirements when submitting your logo to us.

Because the Fence Wrap printable area is 1.6m x 2.5m, we need to be able to blow your logo up very large.

We need your logo as a vector file with fonts changed to outlines and colours specified either as CMYK or PMS. Your designer will understand what this means.

### Your Logo

We accept 'vector' files: .ai, .eps, .svg and .pdf\*

\*A PDF is generally a vector file. However, depending how a PDF is originally created, it can be either a vector or a raster file. Whether you opt to flatten the layers of your file or choose to retain each one will determine the image type.

We DON'T accept 'raster', 'bitmap' or 'pixel-based' files: .png, .jpg, .gif, .tiff, .psd.

They will pixilate when blown up.

#### NOTE:

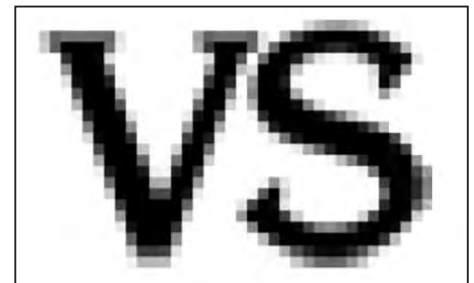

If you require us to add text such as a name, phone number or web address, please supply us your company font.

.TTF (True Type) or .OTF (Open Type) fonts are the best files types for print.

### Vector

### Raster

Please send your logo files as attachments (not embedded in the email) to:
